LOCATION IS LIMITED TO PARKING SPACE(S) LOCATED IN FRONT OF THE WORK ADDRESS LISTED ABOVE. THIS VEHICLE MAY NOT BLOCK ACCESS TO A NEIGHBORING BUSINESS.

- A Permit does not guarantee the contractor to any given parking place. Parking is first come, first served.
- The Permit is to allow the contractor to use his vehicle for the job; i.e. the vehicle must be pertinent to the job at hand.
- The Permit is not intended for a vehicle that is simply driven to and from the jobsite. The vehicle must be necessary to the project. All-day parking for vehicles not pertinent to the project can be found outside the two-hour zones; i.e. parts of Jefferson Avenue, Second Street, etc.
- As much as possible, the contractor needs to park away from Adams Avenue and to be respectful of parking areas for other businesses.
- The Permit does not guarantee that a parking ticket will not be issued. The Ordinance Officer will ticket a vehicle with a Permit if, in her opinion, the Permit is being abused by breaking any of the above-listed policies.

COURTESY PARKING PERMIT IS TO BE RETURNED UPON PROJECT COMPLETION.
